

✔ **Your SSL/TLS encryption mode is Full**

This setting was last changed 17 hours ago

- Off (not secure) ⓘ
No encryption applied
- Flexible
Encrypts traffic between the browser and Cloudflare
- Full**
Encrypts end-to-end, using a self signed certificate on the server
- Full (strict)
Encrypts end-to-end, but requires a trusted CA or Cloudflare Origin CA certificate on the server

Cloudflare

The screenshot shows the Cloudflare dashboard interface. At the top, there is a light blue header bar. Below it, the navigation bar includes the Cloudflare logo, the account name "greenwayserver.com", and links for "Add site", "Support", and "English (US)". A secondary navigation bar contains links for "Home", "Members", "Audit Log", "Billing", "Configurations", "Notifications", and "Registrar".

The main content area is titled "Home" and features a search bar with the placeholder text "Search websites in Greenwaytbd@gmail.com's Account...". A blue "Add a Site" button is positioned to the right of the search bar. Below the search bar, a card displays the website "greenwayserver.com" with a checkmark and the status "Active".

On the right side, there is a light purple box with the heading "Download Cloudflare's Compliance Docs". The text below reads: "Cloudflare's compliance documents are now available for download from the dashboard!" and includes a link "Go to Compliance Docs".

At the bottom right, there are two promotional cards: "Registrar" with a globe icon and the text "Register domains with zero mark-up.", and "Account Analytics" with a document icon and the text "Overview of traffic to all your sites.".
