## EXTRA PRODUCT OPTIONS FOR WOOCOMMERCE

Easily create WooCommerce product add-ons and interactive customization fields

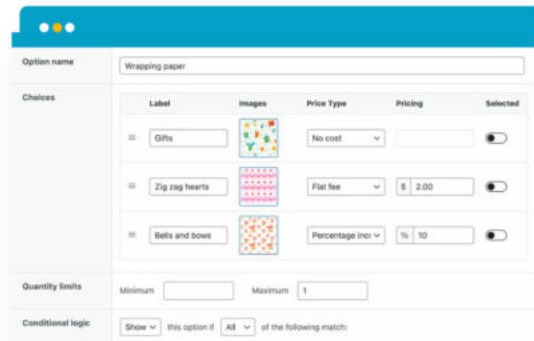

### MORE PRODUCT OPTIONS. LESS MANUAL WORK.

- ✓ Add checkboxes, radio buttons, text fields, file uploads and more to any WooCommerce product
- ✓ Display live previews of the finished product
- ✓ The easier, more flexible alternative to variations

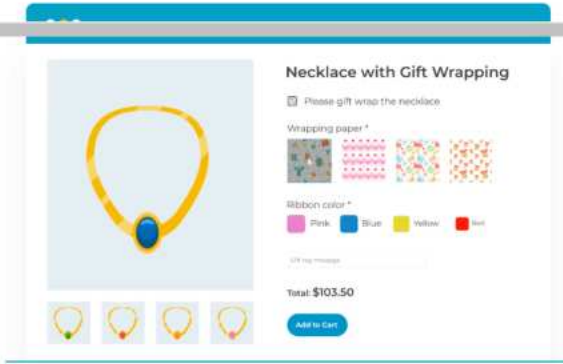

### ADD EXTRA FEES & CONDITIONAL LOGIC

- ✓ Change the price based on the options chosen
- ✓ Flexible option pricing - Add flat fees, percentage changes, price by character or file upload, or create advanced custom price formulas
- ✓ Conditionally show or hide product add-ons

depending on the customer's other selections

Option	Comparison	Value
Gift wrap?	Contains	Yes please

**Necklace with Gift Wrapping**

Please gift wrap the necklace

Wrapping paper \*

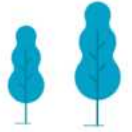

Ribbon color \*

Total: \$103.50

[Add to Cart](#)

## UPSELL WITH UNIQUE PRODUCT ADD-ONS

- ✓ Upsell related products above the add to cart button
- ✓ Sell upgrades to increase average order value
- ✓ Offer extras like custom installation, free gifts, and accessories

## WHAT OUR CUSTOMERS SAY

*The best WooCommerce product options plugin*

"The team at Barn2 has done it again! We were able to add our options in no time. It works great with restaurant ordering, where you want customers to click on a thumbnail to add options (think Pizza)."

"Barn2 not only make fantastic plugins that work easily and the customer service is second to none. The only thing better than dependable products is dependable customer service – they have that, too."

★★★★★ Rated **4.93** out of 5 stars

## PACKED WITH FEATURES

*Get total flexibility by adding custom product option fields to WooCommerce.*

**16+ Field Types**

**9 Price Options**

**Conditional Logic**

Checkboxes, radio buttons, dropdowns, file uploads, date/time, text fields, products, color/image swatches, and more.

Add a flat, quantity or character-based fee, increase or decrease the price by a %, or create a custom price calculator or formula.

Use conditional logic to show/hide product options based on which options and variations the customer selects.

### Advanced Rules

Set default values, required fields, allow decimal numbers, and set minimum and maximum quantity rules.

### Live Image Previews

Optionally allow customers to see a live preview of how the finished product will look with their uploaded image.

### Works With Your Theme

WooCommerce Product Options works with any theme, plus other Barn2 plugins like [Product Table](#) and [Quick View](#).

Billed annually, unless marked as lifetime. If you let an annual license expire then you can keep using the plugin but won't receive any more updates, new features or support. Lifetime licenses include lifetime updates and support. You can upgrade your license at any time.

### 100% MONEY BACK GUARANTEE

*We've got your back. Your purchase is covered by our no-risk 30 day money back guarantee.*

*If for any reason you're not completely happy with the plugin, you're entitled to a full refund up to 30 days from your original purchase. No questions asked.*

*Katie Keith*  
Co-Founder

*"The best WooCommerce extra product options plugin ever made. Neatly written code, excellent support, and promises to develop and add functionality in the future. A real best buy. Thank you!"*

**Vlad Sucitu - Fii Digital**

## SCREENSHOTS

See the plugin in action, or [check out the demo](#).

Add extra product add-ons such as checkboxes and radio buttons

Conditionally display add-ons such as gift wrapping options

Group custom fields and assign them to products or categories

Choose from a wide range of extra product option field types

## PRODUCT OPTIONS TAG

Our world-class support starts here: How can we help?

Does the plugin provide live image previews of uploaded files? 

Does WooCommerce Product Options work for my use case? 

What are the different types of extra product fields? 

Can I add multiple option fields to the same product? 

Is it possible to share fields across multiple products? 

Can I charge an additional fee for product add-ons? 

How does the date picker field work? 

How does the WooCommerce measurement price calculator field work? 

Can I display other products as options? 

How does the conditional logic work? 

Can I add default values for my product add-ons? 

Can I manage stock for product add-ons? 

Does the file upload field support multiple files? 

Do the product options work with AJAX add to cart? 

Will it work with my theme & other plugins? 

Does it work in my language? 

What are the minimum requirements for running the plugin?
