MASSAGE THERAPY

||SERVICE ENHANCEMENTS||

Massage therapy is a relaxing & therapeutic healing service. Bloomington Wellness offers therapists trained in specialized therapies & offering skills to enhance your massage session. Please review our services below & inform us how we can enhance your session today.

CBD OIL MASSAGE:

CBD Oil is hemp derived, THC free, full spectrum, & therapeutic grade. **\$15**

- Benefits - Relief of muscle soreness, reduce chronic pain & inflammation. CBD also calms the nervous system, supports healing of injured tissues, & improves skin conditions. Others report decreased anxiety & depression, improved sleep, decreased medication dependency.

CUPPING THERAPY:

Therapeutic Cupping is done with silicone or plastic cups, a popular addition to massage sessions. **\$15**

- Benefits - Decreases neuromuscular pain. Helps improve dermal, digestive, even psychological conditions. The technique uses negative pressure rather than compression found in traditional massage. Draws chemicals of inflammation out from deep in the tissues, reduces edema, encourages healthy blood flow, & aids in eliminating waste in the tissues.

HOT STONE THERAPY:

Hot Stone Massage ranges from soothing to a deep technique utilizing smooth heated stones. **\$15**

- Benefits - Stones may be used to stimulate acupuncture or pressure points. Direct heat encourages muscular relaxation allowing deeper muscle manipulation. Promotes flexibility & mobility, lymph drainage, blood circulation, & increase cellular activity have all been noted as benefits.
