

The image features the Servihogar logo, which consists of a stylized white wave icon to the left of the brand name 'Servihogar' in a white, sans-serif font. The background is a blurred photograph of several cleaning staff members in white shirts and blue aprons, some wearing yellow gloves, working in a modern office or home environment. A circular inset in the lower-left corner shows a close-up of hands in yellow gloves cleaning a surface with a blue cloth.

ARE YOU READY FOR A DRAMATICALLY IMPROVED EXPERIENCE WITH YOUR NEXT CROWN?

GOOD-BYE TEMPORARY CROWN

GOOD-BYE SECOND APPOINTMENT

GOOD-BYE GOOEY MESSY IMPRESSIONS

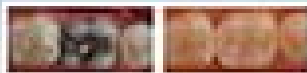

Milford Dental Care is pleased to offer you the Comfort and Convenience of One Visit Dental Care.

We understand how hard it can be to take off work to have someone take care of the kids even once, but

Now with 3D CAD/CAM Technology, we can digitally design and mill a Customized, Ceramic Restoration in one appointment.

When it comes to your next crown, the benefits of a Digital Restoration add up quickly.

A Same-Day Restoration
A Stronger More Precise Fit
A Beautiful Natural Appearance

SAME-DAY DIGITAL RESTORATIONS.

Crowns, veneers and bridges that happen in hours instead of days. Ask your dentist if digital dentistry is right for you.

Restorative dentistry has evolved and now, digital technology allows us to take an impression of your teeth with a digital scanner and create your restoration right in our office. We can match your existing teeth and provide you with a filling, veneer, crown or bridge using the most advanced non-metal composite materials giving you a beautiful smile and natural appearance.

Find out if digital dentistry is right for you.

Would you like to be able to control the lighting in your home conveniently and automatically...?FOR EXAMPLE:

- Turn on your lighting when you are away or when a door or window is opened, or when motion is detected, to deter potential thieves.
- Dim your lighting for best effect when watching a favourite movie or program.
- Time control the lighting in your children's room.
- Time control your hall way lighting so it's on when you first wake up.
- Alter the colour of your kitchen LED lighting to suit your mood.

SERVICES WE PROVIDE
HOME AUTOMATION, LIGHTING CONTROL, SECURITY,
TEMPERATURE MONITORING, BLIND CONTROL,
FLOOD DETECTION, INTEGRATION OF INTELLIGENT DEVICES

Devices can be connected to a central base unit by Z-Wave technology. There are no individual wires and the central base unit connects to your internet router so that you are in control wherever you are.

Left the house and wonder if your security system is armed or have no security system?
NO PROBLEM!

- The system motion sensor will report movement and email you that someone is in your house.
- The same motion sensor can be used to detect rising temperatures. Place one in any important area to alert you to the conditions in the room. The sensor also monitors light level and can be used to turn on exterior lighting as darkness falls.
- Integrate IP based cameras for a total solution.

Worried about flooding?

- A flood sensor can alert you to potentially costly water damage.

HOME AUTOMATION CAN ADD REAL VALUE TO YOUR HOUSE.
