

BROCHURE AND COVER DESIGN

AUTOMATION

Apex Automation is a leading provider of automation solutions for manufacturing and industrial applications. Our expertise includes the design, installation, and maintenance of automated systems, ensuring maximum efficiency and productivity for our clients.

Our services include:

- Robotics Integration
- Conveyor Systems
- Material Handling
- Automated Assembly
- Quality Control
- Custom Machine Design
- System Integration
- Process Automation

2018 Projects

- Automated Assembly Line
- Conveyor System Upgrade
- Robotics Integration
- Quality Control System
- Custom Machine Design
- System Integration
- Process Automation

Markets Served

- Automotive
- Food Processing
- Pharmaceuticals
- Chemicals
- Plastics
- Textiles
- Electronics
- Power Generation

ENGINEERING

Apex Engineering provides comprehensive engineering services for manufacturing and industrial applications. Our expertise includes the design, development, and testing of mechanical, electrical, and software systems, ensuring optimal performance and reliability.

Our services include:

- Mechanical Design
- Electrical Engineering
- Software Development
- System Integration
- Quality Control
- Custom Machine Design
- System Integration
- Process Automation

FABRICATION

Apex Fabrication provides high-quality fabrication services for manufacturing and industrial applications. Our expertise includes the design, development, and testing of mechanical, electrical, and software systems, ensuring optimal performance and reliability.

Our services include:

- Mechanical Design
- Electrical Engineering
- Software Development
- System Integration
- Quality Control
- Custom Machine Design

HOW CARBON TAX WORKS

1 GOVERNMENT

The Nova Scotia government is implementing a carbon tax to reduce our carbon footprint.

2 ENERGY COMPANIES

Big energy companies (NS Power, Irving, etc.) are charged a carbon tax to incentivize them to run cleaner companies and reduce their carbon footprint.

3 HOME OWNERS

Big energy companies do not eat the added costs from carbon tax. Instead, they charge their customers (YOU) more to offset their costs.

TRANSPORTATION

	PER WAY
AM Pick-up (Includes day of daycare)	\$40
PM Pick-up	\$16
AM Drop-off	\$16
PM Drop-off (one day of daycare)	\$40

100 DAYS

THE RULES ARE SIMPLE.
DAILY FOR 100 DAYS.
YOU MUST DO THE FOLLOWING:

is a mental and physical lifestyle challenge designed to force you build sustainable habits that will change the way you eat, drink, sleep and even think. This is not another strenuous exercise program designed to help you shed weight and gain muscle in 30 days only to gain it all back. This lifestyle challenge allows you to spend time with your family, work around your busy schedule and create balance in your life to improve your physical health, mental health & quality of life. What are you waiting for? Let's get started.

1. Drink 1 gallon of water.
 2. Create 1 new healthy meal.
 3. Go outside for 30 minutes.
 4. Read 10 pages of any self-help book.
 5. Save \$5.00 daily.
 6. Give up 1 thing.
 7. Do 1 thing you enjoy doing.
- IF YOU FAIL, YOU MUST START OVER AT DAY 1 & DO BETTER. GOT QUESTIONS? GOOD!**

Some details before you commit...

- There are No Excuses. No Exceptions. If you fail any of the daily tasks, you must start over. Don't lie or cheat yourself.
 - **YOU GET OUT WHAT YOU PUT IN** - Let me say that again, **YOU GET OUT WHAT YOU PUT IN**.
 - You must take a before and after picture and document a weight goal.
 - You must document all tasks daily. Just think, when you're done you will have a bomb you took of your own recipe.
 - **Drink 1 gallon of water** - Five 25oz bottles of water is almost 1 gallon. 1 gallon = 128oz. Want to make this easy?
 - **Create 1 new, healthy meal** - Healthy does not mean complicated. I encourage you to create new SIMPLE meals that you actually enjoy. Healthy is what you define it as. McDonald's is not healthy. I suggest setting a strict diet and sticking to it.
 - **Go outside for 30 minutes** - You do not have to exercise or workout every day. HOWEVER, you should. Going outside can simply be watching your kids playing outside or taking a walk. The 30 minutes must be consecutive. Remember, you get out what you put in!
 - **Read 10 pages of any self-help book** - a self-help book is defined as one that is written with the intention to instruct its readers on solving personal problems. Lord of the Rings is not a self-help book.
 - **Save \$5.00 daily** - Yes, \$5.00. Not \$2.00 on Monday and \$23.00 Friday. \$5.00 per day. If you can only save \$4.00 one day you fail. Once you're done, spend the \$500.00 on your next business venture, start a savings, invest in your future or buy that expensive stuff you've been looking at to reward yourself. However, you spend it is up to you. I guarantee you once you get a nest egg of money you will not want to spend it, though.
 - **Give up 1 thing** - The one thing you give up must be specific and consistent throughout the challenge. For example, if you give up drinking this must be for the duration of the challenge. I employ you to give up a vice that you have been unable to kick for years. You can thank me later. Again, you get out what you put in.
 - **Do 1 thing you enjoy** - The one thing that you enjoy doing can be anything and can offset each day. However, this must be pre-planned and documented. You can't say on Day 2 that yesterday I slept because I enjoyed it.
- Lastly, don't expect to sit around and drink water and expect to lose 20% of your body fat and feel like a brand new you. By creating these habits and improving them together you will not only help you lose weight but you will completely improve your quality of life too and you've never experienced. Let's be honest, the first couple weeks will be completely improve your quality of life too and you've never experienced. Let's be honest, the first couple weeks are going to suck as you cut your vice and develop new habits, but the only thing that stands between you and everything you've ever dreamed of is 100 Days!

Kinco HMIware Remote-Zugriff über VNC

KONFIGURATION CLIENT

WAS IST VNC?

VNC ist eine Fernsteuerungsprotokolle, mit dem Sie über Ihren PC oder die Smartphone die Kontrolle über ein Kinco HMI im Netzwerk übernehmen können. Sie können durch das Aktivieren VNC und Ihre Bildschirmeingaben mit Maus und Tastatur werden auf das HMI übertragen.

VNC-Client-Programme können Sie im Internet für Windows, MacOS und andere Systeme herunterladen. Sobald Sie im Internet über App Store einfach auch VNC-Client.

Wie aktivieren Sie VNC im Kinco HMI?

Setzen Sie die LBP292 im Kinco HMI auf 1, um den VNC-Server zu starten. Das können Sie über einen Schalter tun oder einen Timer auf dem Common-Window, der dieses Bit beim Start des HMI aktiviert. Wenn Sie Bit LBP292 aktivieren, befindet sich der VNC-Server im Read-Only-Modus.

Wie kann ich den VNC-Zugriff durch ein Passwort schützen?

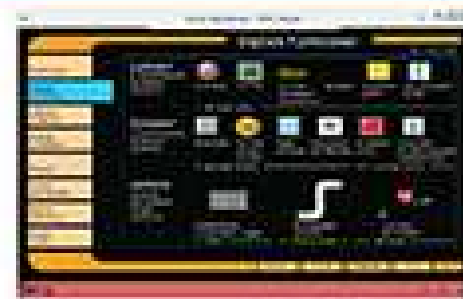

Es gibt zwei Passwörter für die VNC-Funktion, die Sie einzeln aktivieren können. In Variable LW10146 - LW10049 können Sie eine Zahl als Passwort für den VNC-Login-Zugriff hinterlegen, z.B. über die Number Input auf dem HMI. Dieses Passwort aktivieren Sie, indem Sie LBP292 auf 1 setzen.

Um die Bedienung des HMI zu schützen, verfahren Sie genauso mit LW10146 - LW10147, das mit LBP292 aktiviert wird.

VNC-Verbindung herstellen

Machen Sie Doppelklick auf den VNC-Client und das HMI im Internet mit dem Client verbinden. Möchten Sie den VNC-Client starten, geben Sie durch die IP-Adresse des HMI bei und verbinden. Die VNC-Verbindung ist jetzt hergestellt.

Sobald Sie kein Passwort für den Login-Einstellung, werden das Passwort Feld aus, falls es aktiviert wird.

VNC-Betrieb

Sobald sich der VNC-Client mit dem HMI verbunden hat, sehen Sie das aktuelle HMI-Bild. Sie können es auch bedienen, wenn Sie die Bedienung nicht deaktiviert haben. Die Bedienung ist nicht vergrößert. Hinweis: Alle Bildschirmaufgaben sind auch auf dem HMI sichtbar.

Laser Therapy -
Pain Free Pain Relief

At Kingston Spinal Clinic we are now offering cutting edge high intensity laser therapy (HILT) also known as Class IV Laser. This quick, safe and painless therapy stimulates cells and produce energy at the cellular level. It quickly reduces pain and inflammation, accelerates healing and recovery, and improves circulation amongst many other benefits.

Our patients have been amazed at how fast they are recovering from long term pain with just a few simple treatments. The process is painless and you will feel great in no time!
We use HILT as part of our treatment for many musculoskeletal injuries and chronic pain conditions including but not limited to:

- Sports and workplace injuries such as fractures, muscle strains, ligament sprains and joint problems.
- Back and neck pain
- Sciatica
- Myofascial trigger points
- Tendinitis
- Arthritis
- Nerve pain / injury
- Fibromyalgia
- Trigeminal neuralgia
- Burns
- Tennis / golfer's elbow
- Carpal tunnel syndrome and RSI
- Plantar fasciitis
- Frozen shoulder and rotator cuff dysfunction
- Lymphedema
- Chronic regional pain syndrome

Our System

N = Network to elite architect and designers
D = Digitized framework and diverse connections
H = Heuristic method for evaluation candidates for the ideal placement

Discovery Consultation

Schedule a call at the link below, or email us with a phone number and a good time to reach you.

Position Specifications

You provide us with a comprehensive position description with starting salary, and a candidate profile that fits into your requirements and company culture.

Our Search

We begin our search, applying our vast research capabilities and our experience in the industry to locate the perfect candidate. This reduces you of having to call through hundreds of CVs of unqualified candidates filling up your in-box or submission portal. We conduct in-depth interviews online, and eliminate all but the top candidates to present to you.

The Selection

We partner in your decision-making process to ensure a match that leads to a high level of success for you and your new hire.
