BUZZY
Taking the Sting out of Shots!

Want Tear-Free shots?

This Device Can Stop Pain from Injections

Designed for kids over 1 year old, the Buzzy tends to be more commonly seen in children's hospitals, where patients are more likely to receive frequent injections or IV lines. But also benefits when administering routine allergy shots too.

"Before my pediatrician introduced Buzzy into our lives, my daughter would scream bloody murder when getting shots - nothing worked to calm her down, not sugar water, not lollipops, not my iPhone while getting the shot, NOTHING. Then my pediatrician whipped this thing out and, like magic, she didn't shed one tear, NOT ONE. If your kid is afraid of shots, get this - it works wonders!"

What is the Buzzy Pain Relief Device?

Buzzy is a handheld device/ice-pack combo that sends out a small buzzing vibration on the skin, the cooling feeling (thanks to the icy cold "wings") and vibrations confuse the nerves so that the brain won't recognize the pinch from the needle insertion. A parent, staff member (or the patient device on the skin old enough) will place the Buzzy device on the skin slightly above the injection site, and the needle will enter the skin a few inches below. After the injection, the Buzzy is removed and regular nerve signaling is restored.

LIKE NEVER BEFORE**

**HAPPY DAYS ARE HERE AGAIN
IN THE SOVIET UNION.**

THE FASCIST INVADERS ARE ALL DEAD,
GROUND INTO DUST BENEATH THE BOOTS OF THE VICTORIOUS
RED ARMY.

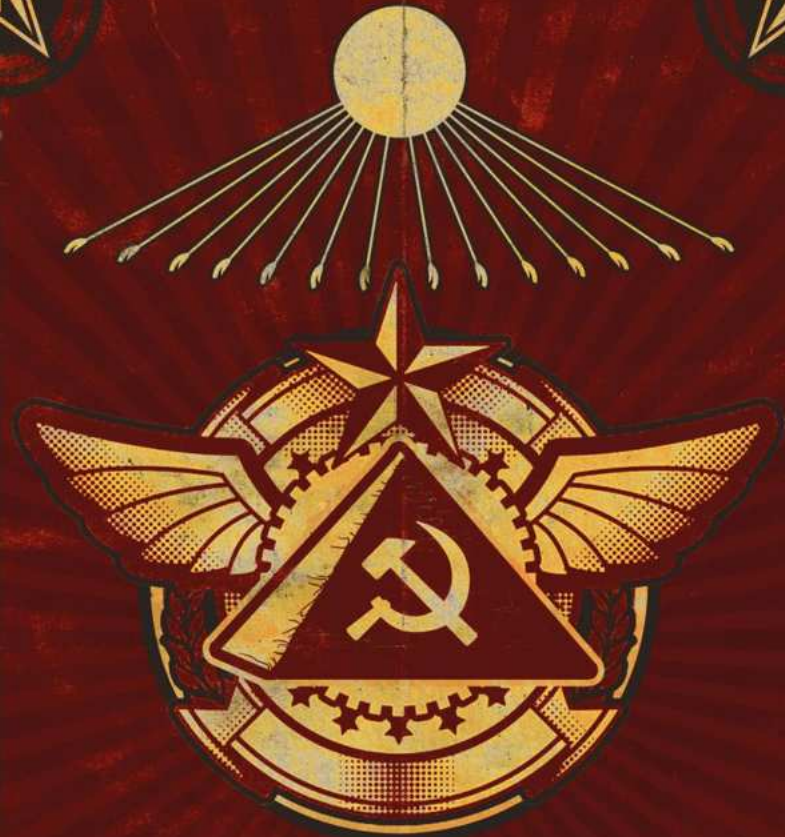

WISE COMRADE STALIN RULES WITH A GENTLE AND
COMPASSIONATE HAND OVER THE VANGUARD OF THE
WORKER'S PARADISE TO COME. AND THE EVER-VIGILANT
AGENTS OF THE MINISTRY OF STATE SECURITY KEEP A
WATCHFUL EYE OVER THE POPULACE, GUARDING THEIR MINDS
FROM THE PERIL OF SUBVERSIVE, ANTI-SOVIET THOUGHTS.

AT THE COST OF AN OCEAN OF HUMAN BLOOD, PEACE IS
SECURE AT LAST.

AND YET, SOMETHING IS CHANGING. FROM THE RE-EDUCATION
CAMPS OF SIBERIA TO THE INNER HALLS OF THE KREMLIN,
THERE ARE WHISPERS OF A NEW PRESENCE IN THE USSR, AN
ANCIENT CHALLENGER THAT HAS RE-EMERGED FROM THE
DUSTY TOMBS OF THE PHARAOHS...

THE SOVIET UNION IS AN ATHEIST STATE; THE CLOSEST THING
IT HAS TO A GOD SITS BEHIND A DESK IN MOSCOW.

THE SUN-GOD DOESN'T CARE.
