Ajax Live Search

This amazing ajax search can be used to create more user-friendly and interactive searches. Live search has many benefits compared to traditional searching.

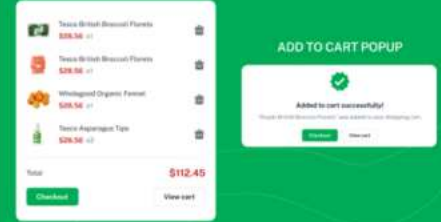

Built-in Mega Menu

Mega menus allow friendly and visual grouping of options into logical groups. A traditional dropdown becomes completely dizzying when the number of options gets too large.

AJAX CART

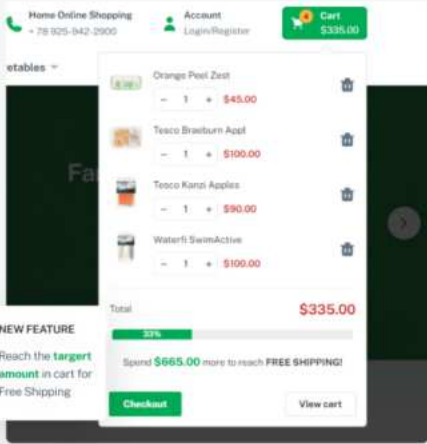

POPUP QUICKVIEW

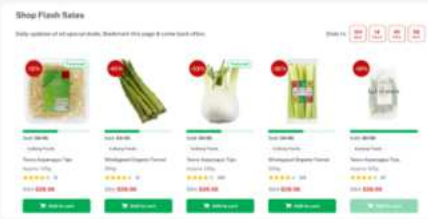

Ajax Mini Cart

Custom mini cart for WooCommerce. You can add to cart, update quantity in this cart via ajax. Also you can edit the style for this cart in the admin panel.

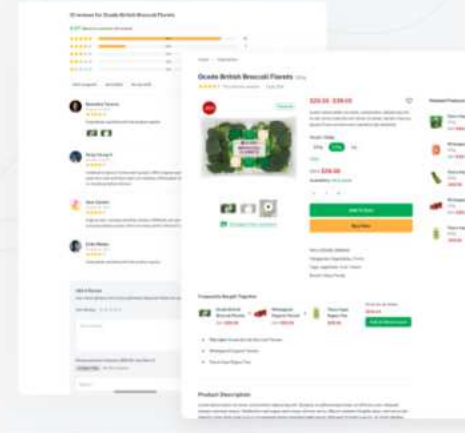

Shop Flash Sales

A discounted product in limited supply encourages visitors to lower the threshold for trying a new product or stocking up on something they know they like.

Single Product

Effective product pages immediately convey the value of a featured product. They show potential customers what a product looks like, tell them what it feels like.

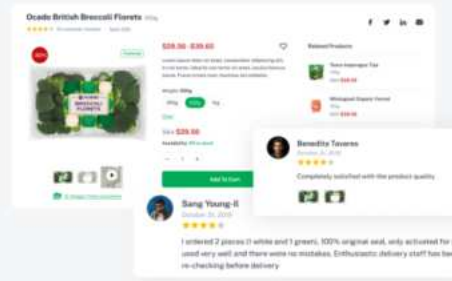

Frequently Bought Together

Analyses the previous purchases in your store database through data mining algorithms and produces a memory graph with the recommended products are usually added together to the shopping cart.

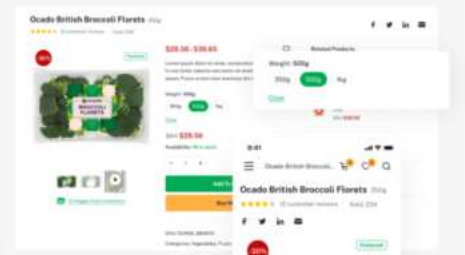

Customer Image Reviews

Review photos not only increase trust and traffic but they also help maximise conversion potential. Our newest solution makes it easy for happy customers to add their great photos directly to their online reviews.

Product Variation Swatches

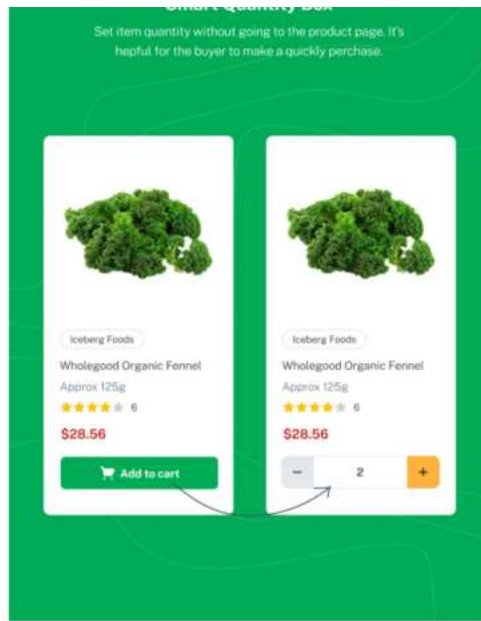

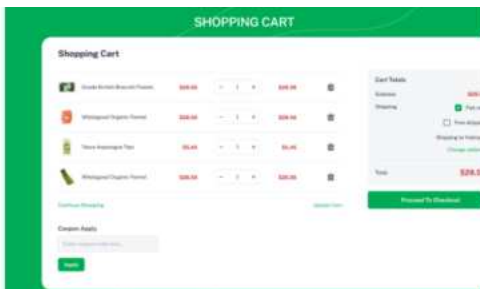

Product Variations Swatches for WooCommerce is a professional plugin that allows you to show and select attributes for variation products.

Cart & Checkout Page

The checkout page of an e-Commerce website presents a step-by-step flow that customers follow to enter all the information that is required to place an order.

Clients Say About Us

We are very fortunate to have formed excellent partnerships with many of our clients. We have also formed true friendships.

★★★★★ for **Customer Support** by *anoma3*

Great theme, functions perfectly, and great support team! They react fast, and send you video link to explain how to solve your issues yourself, so you can do it anytime!

★★★★★ for **Design Quality** by *bakanchuka*

Great Theme & it's really easy to use. The best documentation i have seen so far with step by step process to go ahead with the theme right away after purchase. The most outstanding is the customer support. A+++

★★★★★ for **Design Quality** by *manishchander*

It's awesome in terms of everything. Design, Code, and optimization - Everything is just wow. Support is prompt. We have created a website at no time.
