BASIN
FLEETING

We, at Basin Fleeting, manage the largest deck barge division on the Gulf Coast, specializing in the mobilization and demobilization of deck barges. We are the only fleet located in the "Y" of the Lower Atchafalaya, where the Atchafalaya meets the Intercoastal Waterway, which allows for directional access. Our primary customers are companies needing a place to triangulate their barges and tows or load out heavy cargo for transport in the Berwick/Morgan City, Louisiana geographic location.
