SmileCrew
ORTHODONTICS

Retainer assurance

We understand how important it is for our patients to maintain their beautiful smiles after orthodontic treatment.

Retainers are an essential part of this process, which is why SmileCrew Orthodontics is thrilled to offer our Retainer Assurance to all our patients. This program will help you protect your investment and ensure that your retainers stay in excellent condition for many years to come.

Our Retainer Assurance program is designed to cover your retainers for five years from the date you finish your orthodontic treatment. We understand that life happens, and sometimes accidents occur. If your retainer becomes damaged, lost, or stolen during this time, our program will provide you with a replacement at no additional cost to you. This means that you can enjoy peace of mind knowing that your investment is protected.

One of the most common reasons patients need to replace their retainers is due to damage caused by pets. We have seen it all, from dogs who love to chew on retainers to cats who enjoy playing with them. With our Retainer Assurance, you won't have to worry about the cost of replacing your retainers if your furry friend decides to use them as a chew toy. We have you covered!

**SAVE
MONEY**
Smile
MORE

The process of obtaining replacement retainers is straightforward and hassle-free. Simply contact our office, we will then work with you to find a time to get you in for a new set of retainers and have them **DELIVERED TO YOU SAME DAY.**
