We understand how hard it can be to take off work or have someone else take care of the kids even once, but not???

Now with 3D CAD/CAM Technology, we can digitally design and mill a Customized, Ceramic Restoration in one appointment.

WHEN IT COMES TO YOUR NEXT CROWN, THE BENEFITS OF A DIGITAL RESTORATION ADD UP QUICKLY!

**SAME-DAY DIGITAL RESTORATIONS.**

Crowns, veneers and bridges that happen in hours instead of days. Ask your dentist if digital dentistry is right for you.

Restorative dentistry has evolved and now digital technology allows us to take an impression of your teeth with a digital scanner and create your restoration right in our office. We can match your existing teeth and provide you with a filling, veneer, crown or bridge using the most advanced non-metal/composite materials giving you a beautiful smile and natural appearance.
