OUR MISSION

IN SUPPORT OF OUR CANINE HEROES.

RESCUE

Mission K9 Rescue is committed to helping all CWIDs and MWDs (as well as any other working dog) in need of the retirement they deserve, whether bringing them back from overseas or rescuing them out of a poor environment situation.

RE-HOME

For any retired working dog who does not have a designated handler, Mission K9 Rescue will work to find the perfect loving home for them.

REUNITE

Any retired working dog with a handler that wants to adopt, but has proven that they are the right home (handlers always get first preference). Mission K9 Rescue will assist dog in reconnecting them.

REHABILITATE

Other retired working dogs have been in situations that can cause them severe anxiety and stress. These dogs need time to decompress and reprogram into society. We work with them until they are the suitable for adoption.

REPAIR

Working dogs train like professional athletes their entire career. Often when they retire, they have extensive medical issues that can become costly since they don't receive retirement benefits, we provide the needed funding to assist handlers and/or adopters with medical bills.
